Smart Giving to Improve Communities

Strategic Giving Services

Your charitable giving reflects who you are as an individual, a family, or even as a business. The issues and causes you choose to support communicates what you value and how you view the world. As you define your legacy, our team is here and ready to help.

In addition to providing investment oversight and administrative support, the Community Foundation can provide you with customized services to ensure your charitable giving is deeply rewarding, tax-efficient, impactful and enduring. Some of the services offered include:

Exploring Giving™	Motivational Values™	Money Messages™	Growing Goodness™	Picture Your Legacy™
Facilitating family conversations around charitable giving	Uncovering your motivational values	Aligning your values with your giving	Involving your children in charitable giving decisions	Defining your Legacy

Whether developing a personal giving plan, guiding you and your team towards a charitable giving strategy that aligns with your business goals, or engaging younger generations in your family in learning about the importance of giving back, we want to be your partner in philanthropy.

You can create positive change in your community, and we can help!
